OF THE NORTH CAROLINA COLLEGE FOR WOMEN

VOL. IX. No. 3.

GREENSBORO, N. C., OCTOBER, 1920

PRICE, 25 CENTS A YEAR

FOUNDER'S DAY

Founder's Day was celebrated at the college this year on October 5th, in a manner befitting the honor and dignity of the occasion.

Early in the day, flowers were placed upon the grave of the founder of our college, Dr. Chas. Duncan McIver, by Dr. Foust, together with representatives from the faculty and student body.

Shortly before eleven o'clock the faculty and guests, alumnae and student body, assembled in front of the Administration Building, here forming an impressive procession to march to the Students' Building where the exercises were held.

The exercises were opened with the singing of the hymn, "Come, Thou Almighty King," and Dr. Turrentine, president of Greensboro College, pronounced the invocation.

Following the singing of "Carolina" by the audience, Dr. Foust read the following messages from the alumnae, which were listened to with great appreciation and pleasure:

Durham, N. C.—Durham County Association sends love and sincerest good wishes to you and our dear Alma Mater.—Leah Boddie.

Wilson, N. C.—Greetings to you and my college mates on Founder's Day.—LaRue McLawhorn.

Each and every one of us is ready to answer her call and labor for her betterment, enlargement of her scope, and continued success of her work for the homes and youth of our state. May we all ever be true to the ideals taught us by Alma Mater and act as missionaries to spread these ideals wherever we may go.

To the girls who today are within her walls we send loving greetings and the assurance that as they, too, come out and join our ranks in the world to spread the gospel of true brotherhood, we their older sisters, will not only gladly receive them, but will stand back of them, ready to uphold and assist them in every way possible.

To the faculty, one and all, goes our love and grateful appreciation of what their unflinching patience, love and instructions have meant to us, personally, in our endeavors to reach the high goal set before us by them.

May this be the best year of the college and a harbinger of continued success along all lines.

"We like to live in this town near you;

We like to be where we can hear you—

Can hear the old familiar bell

Send forth its rising, working knell.

We will not travel very far

From college home—so here we are."

Ione Grogan, '15; Annie Beam, '16; Jane Summerr, '16; Maudie P. Minish, '13; Eula Alexander, '13; Cornie Stout, '16; Flossie Stout; Inabelle Coleman, '18, Teachers in Greensboro High School.

The audience then rose at a signal from Mr. Wade Brown, and the hall rang with the notes of the much loved College Song.

Prefacing his introduction of the speaker of the occasion, Dr. Foust gave an interesting picture of the early days of the college, reading many illuminating clippings from the News and Observer and the Daily News of October 6th, 1892. These articles gave an account of the opening day, when there were one hundred and seventy-six young women present to register.

The members of the faculty at that time were Dr. Charles Duncan McIver, President; Miss Sue May Kirkland, Lady Principal; Prof. E. A. Alderman, teacher of History and English Literature; Miss Gertrude Mendenhall, Mathematics and German; Miss

Viola Boddie, Latin and French; Miss Dixie Lee Bryant, General Science; Miss Edith McIntyre, Domestic Science; Miss Melville Fort, Art; and E. J. Forney, Stenography, Bookkeeping and Telegraphy. The appropriation for the first year's maintenance was ten thousand dollars.

Dr. Foust then said that it had heretofore been the custom to have an address on Founder's Day, which related particularly to local questions, but that in view of the broader world relationship which was fast developing, he had deemed it fitting that we interest ourselves in questions which were affecting world history as well. He then introduced Count Ilya Tolstoy, of Russia, the noted novelist and speaker.

The subject of Count Tolstoy's address was "The Truth About Russia," and Count Tolstoy said that although it was impossible to tell the truth just now about Russia, he would seek to give an accurate description of conditions as they exist in Russia at the present time. He then spoke upon the origin and meaning of bolshevism, and described the conditions which were responsible for it.

Count Tolstoy said that since Russia was such an integral part of the world, world peace could not be realized while Russia was still at war, and that the whole world was at present suffering punishment from previous wars out of which no good could ever come.

He very hopefully predicted the defeat of bolshevism, however, and expressed the belief that we would all live to see Russia united in a great republic which would be known as the United States of Russia.

Count Tolstoy closed his address with a beautiful tribute to the memory of his father, showing how, in his character, was found the highest development of the four stages of love, the love universal, and how love such as this would prove the salvation of the world.

The exercises were brought to a fitting close with the singing of the national anthem.

E. C. B., '13.

FOUNDER'S DAY ALUMNAE MEETING

There was a regular meeting of the Alumnae and Former Students' Association in the Y. W. C. A. Hut, on the afternoon of Founder's Day. Dr. Foust addressed the meeting, appealing to us to bend all efforts in the next legislative campaign toward helping to give the young women of North Carolina a chance. Interesting reports were given and an outline of the reunion of the alumnae and former students which is being planned for the Teachers' Assembly was discussed. Plans for commencement and the Christmas bazaar which is to be held at the college for the benefit of the building, were also taken up, and necessary committees appointed.

The business meeting then resolved itself into a social gathering, and light refreshments were served.

The report of the General Secretary, Ethel C. Bollinger, was read at this meeting.

REPORT OCTOBER 5, 1920

Since the commencement report was given the following engagements were made and kept:

Alamance County—Graham and Burlington. Fifteen present. Good meeting. Agreed to try to raise \$2,000.

Stanya County—Albemarle. Ten present. Agreed to try for \$600.00.

Johnston County—Smithfield. Twelve present. \$1500 quota accepted.

Cabarrus County—Concord. Ten present. \$1,000 quota accepted.

Lenoir County—Kinston. Five present. \$1,800 (quota not decided upon).

Wayne County—Goldsboro. No meeting, but appointment. Chairman, Miss Mary DeVane.

Guilford County—Greensboro. Thirty-five present. Informal meeting.

Forsyth County—Winston-Salem. Six present.

Haywood County—Waynesville. Fifteen present. \$700 (quota left for consideration).

McDowell County—Marion. Eight present. \$700 (quota left for consideration).

Caldwell County—Lenoir. Eleven present. \$1100 (left for consideration).

Effort was also made to procure a meeting in Henderson County at Hendersonville. Four county chairmen cancelled engagements in the following counties: Orange, Randolph, Gaston and Cumberland.

Financially the Association has been able to keep clear of debt with some help from the college. At present we have \$197.33 in the treasury.

It is our aim this year to continue the program which was begun last year—development along three lines: (1) Increased membership; (2) stronger and more county chapters; (3) to enlarge our building fund. You will notice the order in which I have read these three items. This is because each is dependent upon the other. For instance, the work needed to build county chapters cannot thrive without a full paid-up membership, and the success of our building project in turn depends upon the strength and enthusiasm of the county chapters.

We are supposed to pay the running expenses of the office, which include stationery materials and office supplies, publication of the Alumnae News and similar publications, traveling expenses of the secretary and all entertainments.

So far we have only been able to pay about half of these expenses. The services of a stenographer are also constantly in demand, and a great deal more publicity work could be accomplished if we had one regularly. We are going to start this fall, therefore, with a campaign for increased membership.

We are also very desirous of having our county chapters in readiness to work for an increased appropriation from the legislature. Every effort will be made to complete the county organizations before the new year. We have 27 complete organizations, with nine smaller groups, which are also ready to work, making a total of 36 county organizations.

The work for the building will grow as interest is renewed in the college.

Our state is enjoying a prosperity such as it has never known before. Irvin Cobb says it is "One of the most prosperous of all our great sisterhood." Knowing this, we can press forward with new hope and zeal toward a realization not only of our

own plans, but of those things for which our college is striving.

Note.—Our Alumnae Building Fund now amounts to eight thousand dollars in cash and notes.

We are anxious to have a large attendance and the local alumnae extend a warm welcome to all visiting daughters of the college, and promise an interesting occasion.

If you have not been to Asheville during the autumn, come; if you have been you will come again.

Those who wish to be present, please notify Mrs. J. S. Williams, chairman of committee on arrangements, in order that a plate may be reserved for you.

CONFERENCE NOVEMBER 6th

There will be an important conference of representative alumnae and former students at the college on the afternoon and evening of Saturday, November 6th. Important matters relative to the coming legislative campaign will be taken up and worked upon. We very much desire a representative from every county organization; and will entertain your delegate while here. We urge you to help us make this first conference of alumnae a success by sending us the strongest delegate your county affords.

CHRISTMAS BAZAAR

You will soon receive a letter in regard to the Christmas bazaar, which we are going to have on December 18th, at the college, for the benefit of the Alumnae Building. We want a donation or gift for the bazaar from each alumna and former student. The letter which we are preparing now will contain suggestions for donations, which should be sent in by December 11th. The success of the bazaar depends upon your interest and generosity. Let us all send the Alumnae Building a Christmas present.

ASSOCIATION PROGRAM, 1920-1921

The program of the Alumnae and Former Students' Association for the year 1920-'21 is to be a continuation of the work begun last year, i. e.:

1. Increased membership.
2. Perfect County Chapters.
3. Alumnae Building.

We might add, however, that this year will be unusual, in that we are facing an interesting session of the legislature, in which campaign we can all take an important part by working for the interests of our college.

OUR TASK

Through the columns of the News I send a message of greeting to our alumnae and former students, desiring to make definite in your minds the task which summons us one and all to our best effort. The marked success of all agencies that have been used to arouse an interest in the education of the youth of our state has brought us face to face with the fact that we must enlarge our borders on a splendid scale, and do it quickly and persistently until we can meet the demands made upon us. Our college has steadily grown in material equipment and our plant becomes more modern each year as our new buildings rise one by one. However we begin our twenty-eighth year of work with no gymnasium in prospect and with such limited dormitory facilities that we were obliged to refuse admission to more than two hundred students who applied. We were unable to house all of our summer session students in our dormitories. When we should be spending our time inspiring the young women of our state with a desire to better their equipment for life and service we find that we offer to them no means of satisfying their aroused interest and must even urge them to go elsewhere if possible, or do something else while the days pass and they are not fed.

Next fall we open a new dormitory and a dining hall now under construction. With the help of these increased facilities we shall still be unable to care for all who applied this summer, not to mention the increase that will inevitably make demands upon us from our growing high schools next year.

This demand for increased facilities applies to every institution of higher education in our state whether public or private, state or denominational in means of support, and is not limited to our state by any means. One mother called on us this summer and we were unable to admit her daughter. She was in her car and so she took to the highway and tried the colleges

from Richmond to Atlanta and failed to gain admission. She returned to us and tried to find room and board in town so that her daughter could attend the college as a day student. It is exceedingly difficult to secure board and room in private homes, even for an earnest student.

What can be done? We must each be a committee of one to urge increased facilities. Our college plant must be doubled in the next few years.

With the help of the federal government we have established a Department of Hygiene, with Dr. Gove in charge of it. We are hoping that the emphasis laid upon this work by our commonwealth will make clear our need for an up-to-date gymnasium and swimming pool, with all facilities for building strong and vigorous bodies, so that the daughters of our state may be thoroughly furnished for their tasks. We desire the strength, beauty and grace of an all-round womanhood.

In your community you should unite with your county organization and you should keep up your membership in our State Alumnae and Former Students' Association, subscribing regularly to the Alumnae News so that you will be an intelligent worker for your Alma Mater and for the young women of your state.

Let us one and all unite in securing the funds for our Alumnae Home on the campus so that we can have a rallying place for all of our activities and really do permanent work. The success of this enterprise depends on each county securing its quota and sending it in to Miss Ethel Bollinger, our efficient Alumnae Secretary, who is devoting her energies to the county organizations and striving to perfect our working units.

Answer all communications from headquarters promptly and send us reports and suggestions growing out of your experience.

Come to see us whenever you can and let us gain mutual inspiration from such fellowship. Plan to attend our big banquet to be held at Battery Park during the Teachers' Assembly.

Watch the papers for notices and news from the college and, when you can do so, furnish your home newspapers with facts giving publicity to our work.

Let us see what we can accomplish by June, 1922.

Yours cordially,
LAURA H. COIT.

THE LEAGUE OF WOMEN VOTERS

In these last recent days the words of Matthew Arnold: "If ever the world sees a time when women shall come together purely and simply for the benefit and good of mankind, it will be as a power such as the world has never seen," are being revived and quoted frequently. It is significant that they are being used in connection with the League of Women Voters—the new organization into which the National American Suffrage Association automatically merged.

By writing to the National League of Women Voters, 918 Munsey Building, Washington, D. C., or to Miss Gertrude Weil, Chairman North Carolina League of Women

Voters, Goldsboro, detailed information can be obtained—information which it seems to me every woman who has a real interest in her community, her state, and her country should eagerly seek.

In the hope of stimulating further study of it, I am presenting here for any who may care to read a very brief resume of this organization.

1. It is a nation-wide organization, composed of state organizations which in turn are composed of local leagues. Mrs. Maud Wood Park is the chairman of the National League.

2. It is strictly non-partisan. Its members are women of every political belief. It gives its support as a body to no party, no candidate or group of candidates.

3. It is non-sectarian—the question of religious affiliation does not enter in.

4. Its aim is two-fold: To foster education in citizenship chiefly by means of schools and classes in citizenship conducted on a non-partisan basis, where women may come and find out the actual truth about governmental problems, and to support legislation which will solve these problems in the best possible way.

5. It is not a woman's party. Numerous men have expressed the fear that women would block themselves together solidly and separately, and work as women versus men. The truth is, the slogan of the organization is: Enroll with the party of your choice, and work through it for the reforms in which you are interested. This advice, however, is given with two cautions: first, be sure that the party you join is really the party of your choice, that you have investigated its principles, that you have a reason for the faith that is within you; and, second, in enrolling with any party do not feel that you are enrolling necessarily for life, but that you will withdraw if the party disappoints you in its ideals and methods, remembering, however, that no party is perfect.

6. The League is carrying on its work through eight standing committees, with an expert at the head of each:

a. Child Welfare, Mrs. Percy V. Pennybacker, chairman.

b. Women in Industry, Mrs. Raymond Robins, chairman.

c. Social Hygiene, Dr. Valeria H. Parker, chairman.

d. American Citizenship, Mrs. Frederick P. Bagley, chairman.

e. Legal Status of Women, Mrs. Catherine McCulloch, chairman.

f. Food Supply and Demand, Mrs. Edw. P. Costigan, chairman.

g. Election Laws and Methods.

h. Research.

From the very titles of these committees, one recognizes that women realize that their function in government is one of social service, and that the legislation they will support will relate largely to women and children and the home.

At the convention of the League of Women Voters held in Chicago in February, 1920, these committees presented to that body a program which represented the result of their most painstaking research, study and deliberation. This program consisted of six planks—each plank comprising more than one division; all together forming the platform of the organization.

Among the objects enumerated are these: 1. The prohibition of child labor throughout the United States. 2. The protection of maternity and infancy. 3. The establishment of a Federal Department of Education, whose Secretary shall be a member of the President's cabinet. 4. A continuance of the appropriation made during the war for the prevention of disease and for public education and sex hygiene. 5. Increased federal support for vocational training in home economics. 6. Federal aid where necessary for the removal of illiteracy and for the increase of teachers' salaries. These are examples. They are by no means all.

Mrs. Maud Wood Park, National Chairman, took the platform of which these planks form a part, to each of the political conventions and asked that they be incorporated. A large number of them were included in all parties. Recently she took them to Governor Cox and Senator Harding to obtain an expression of their individual opinion. Both assured her of their willing support. Said Mrs. Park, "We do not expect a veto, no matter who occupies the Chief Executive's chair."

Several of these measures were introduced into the last Congress, but for various reasons action was delayed. The measure which the League of Women Voters is sponsoring most urgently now is the Sheppard-Towner Bill (please remember). One of these men is a Democrat, the other a Republican. This bill has been introduced into the house and senate, and has been reported favorably in the senate. It provides for an appropriation of \$10,000 for each state the first year, with an additional increase for several years following until the amount has reached about \$83,000 annually, and has as its object the saving of thousands of lives of young mothers and infants. Says Mrs. Park, "An average of 20,000 young mothers and infants die a month in America. In fact, the number of such deaths, resulting mainly from preventable causes, is as large in one year as the entire number of casualties on the American side during the great war." Notice she says "casualties," not fatalities. This is appalling. Surely the United States must be pulled up from its present position as a thoughtless squanderer of mothers and babies.

I quote verbatim from the words of the Senate Committee which reported this bill favorably:

"Heretofore Congress has appropriated large sums of money for hogs and cattle. It is not because men think more of hogs and cattle than they do of babies that they vote forty-seven million dollars for them and nothing for the little ones, but because they have been thinking of the father's end of the problem. Mothers will always think of the baby first; they are made that way; that is why it is good for women to be in politics at this particular stage of the world's history when conservation of life is so important."

The League of Women Voters is asking the strong support of all women of this particular bill when it is again brought up in Congress. Do not forget it—the Sheppard-Towner Bill for the Public Protection of Maternity and Infancy. The fund is to be administered by a Federal Board, of which the Chief of the Children's Bureau,

Miss Julia Lathrop, is to be a member; also the United States Commissioner of Education, Dr. Claxton, and three others, in co-operation with a State Board. Let us write our Congressmen and ask them to vote for this bill. Let us look out for a discussion of it in the newspapers and magazines. Let us interest ourselves in the entire program of the League of Women Voters, and if there is not such a local organization in our community we can be well assured that to organize one would be effort well spent.

CLARA BYRD.

OUR BUILDING FUND

Our building fund was recently swelled to a great extent by the generous gifts of two of Greensboro's leading citizens. These gifts were from the Cones and Mr. Sternberger, and amounted to \$2,500 and \$1,000 respectively. In waging our building fund campaign, the following suggestions from the "Book of Organization" may be found helpful:

Our three chief sources of revenue for the Alumnae Building will come through (1) the alumnae and former students, (2) interested men and women of wealth over the state, and (3) benefit entertainments or similar outside activities. Taking up each method in turn, the following suggestions might be found helpful:

1. For the alumnae and former students, notes covering two years' time and to be met in four payments, two payments a year, have been prepared for signing. Effort should be made to canvass each alumna and former student in the county. The names should be divided out among the members of committees or teams, and in this way the work will not fall heavily upon any one person. The organization which has proven most effective in this work has been that of a central county chairman, a central alumnae building committee, and sub-committees, one in each town or township.

In canvassing the alumnae base your appeal upon the following points:

- (a) The pride of all alumnae in the college.
- (b) Needs of college.
- (c) Its service to the state.
- (d) How our building will further service in the state.
- (e) The need for the building—
- (1) As headquarters for the alumnae and former students.
- (2) For students returning to take post-graduate work, and courses leading to supervision.
- (3) As a community centre for the community and city.

2. In canvassing interested outsiders, have a personal interview if possible. If not, phone or write. A personal interview brings far better results than a letter. Two can often do this work better than one. Cards should be kept, on which the name of the prospective contributor is recorded, together with the response.

In making both these canvasses, gather all the information possible about the alumnae and former students, recording new addresses, and reporting alumnae activities to the office.

3. A great many suggestions for outside entertainments have come in from different counties, e. g.:

- (a) The serving of dinners at the county fairs.
- (b) Selling ice cream at festivals.
- (c) Home talent plays and concerts.
- (d) Procuring play companies, such as the Carolina Playmakers, for a performance.
- (e) A night's proceeds from a picture show entertainment.
- (f) County pageants.
- (g) Market days.
- (h) Flower shows.
- (i) Christmas bazaars.
- (j) Glee Club performance.
- (k) Oyster suppers.
